FOR WINTER Is the Time to Do Many Thing

Now is the Time to Do Many Things that Most People Neglect

Until Too Late

"Do not wait until freezing weather is upon you to get your house and in the world it is upon you to get your house and in the youtting an inch or two months by cutting an inch or two in the first that all the gutters, plees and the two your comfort in bitter days.

See that all the gutters, plees and said other humans refuse. Delay doing this and freezing weather will make work for the timan and big bills for you.

If the root is in bad condition have it repaired immediately. A good time to examine it is in the midet of a line this way where the leaks are.

On that same stormy day make it your business to kook at every windows in this general the direction of the prevailing storms or high winds will often drive the water in. And the world, has many phenomena, which when investigated fully, promises to materially aid dying machine inventors.

On that same stormy day make it your business to kook at every windows in this general world and the properties of the prevent over and vindows out or storage. Repair broken glass, where were putty is lose replace it, and freshen up the sash with a coat of new paint.

Unless your house is very much exposed it is a mistake to use double windows in this general properties, and the properties of the prevent day and cashly moved. Perhaps your dollones can also be arranged in this way. Any good hardware dealer will the a view plan the windows or oval glass opanings should be put high upon the sides to give fight.

This vestibule is a protection not much otherwise be exposed to bitter winds and cold air kept out by utilishing the summer screen door. Tack on the property is the cold and much cold air kept out by utilishing the summer screen door. Tack on the property was a sm

only to the house but to callers who must otherwise be exposed to bitter winds and cold until the door bell is answered.

A kitchen door or one that is not especially prominent can be protected and much cold air kept out by utilizing the summer screen door. Tack on both sides of the wire heavy sheets of water-proof paper. If there is a grack between the floor and the hottom, add a weather stripping.

Many persons prefer weather strippings to double window. They keep out the cold at half the cost. Nor is there the difficulty of keeping two sets

plings to double window. They keep out the cold at half the cost. Nor is there the difficulty of keeping two sets of glass clean. There are many kinds of stripping that can be bought ready to put up. This is much cheaper than to have it made to order. See that it is in place carly.

The cellar must not be overlooked in the wifiter preparation. If you were wise, in the slack times of summer you had the furnace overhauled, the pipes and chimney cleaned, and everything in readiness for the first cold snap. If not attend to it at once.

Perhaps you had difficulty in heating your house last winter. Now is the time to prevent if for another season. See that the furnace stands absolutely flat on its base. If off the level even slightly the pipes will not draw. Perhaps if may be necessary to move the furnace to some spot where the heat will be more equalized. As a rule it is better to set it as near the north as possible so that pipe will be the shortest. The trouble may be conquered, by changing the direction of the level eavy the furnace should be the lowest point, extending up from there to wherever attached. An elbow with a pitch of eightly degrees insures good heat. Be sure that you have enough to wherever attached. An elbow with a pitch of eightly degrees insures good heat. Be sure that you have enough piping for cold air. This should be only a fourth less than the heating surface. It should be connected with the cellar windows and it is a good idea to have a damper in it for use on dusty says. If the furnace does not draw, perhaps the smoke pipe is too far within the chimney, two inches beyond the brick is enough.

Wrapping, the pipes with asbestos paper has often made a house comfortable with a furnace that formerly did hadly. It is also a good plan to line the casing of the furnace with pasted asbestos then with a fluting of tin an inch and a half in depth.

and moves it up and down. A steel clothes pole, that may be removed from a base sunk in the ground when not in use, is something new that is designed to add to the attractiveness of the surroundings of surburban homes.

HOUSEHOLD NOTES

When cold meat is left over, chop it not too fine, warm in gravy or brown sauce, make a ring of mash-ed potato and fill the center with the
